Payments Innovation (improvements over the old SWIFT system)

Comparison of the Two Most Popular Cross-Border Payment Networks

Key Features

- Payment processing cost is significantly reduced by eliminating accounts (freeing trillions of dollars)
- Eliminates the need for nostro/vostro sourcing (savings up to 60%)
- Settlement + on-demand liquidity
- Moving actual value (money) in 4 seconds
- Same-day transfers
- innovative on-demand liquidity
- SEND
- THE BANKS LEDGER INDIVIDUALLY.

Advantages

- Faster cross-border payments
- 24/7 global availability
- No intermediaries
- Secure and transparent
- Low cost

Disadvantages

- High entry costs
- Limited to certain countries
- Requires advanced infrastructure
